MINN. STAT. § 35.06: A person who knows or reasonably suspects that a contagious or infectious disease exists in a domestic animal shall immediately notify the board. MINN. R. 1721.0020 Subpart 7: A person who knows or reasonably suspects that an animal is infected with a disease listed on the board’s reportable animal diseases list must immediately report that knowledge or suspicion to the board.

Conditions/Diseases listed below are to be reported for all domestic species except where otherwise noted.

Report suspect or clinically diagnosed cases of the following diseases immediately:

- Foreign Animal Disease (FAD)  
  (e.g. African Swine Fever, Foot and Mouth Disease, High Path Avian Influenza, Vesicular Diseases, Classical Swine Fever, Exotic Newcastle Disease, Contagious Equine Metritis)
- Anthrax
- Bovine Spongiform Encephalopathy
- Influenza in poultry
- Pseudorabies
- Rabies (wild and domestic species)
- Scrapie
- Tuberculosis
- Chemical Toxicity or Contamination of Public Health Significance (livestock or poultry)

Report if a Minnesota animal has non-negative test results from a public/private diagnostic laboratory:

- Foreign Animal Disease (FAD)  
  (e.g. African Swine Fever, Foot and Mouth Disease, High Path Avian Influenza, Vesicular Diseases, Classical Swine Fever, Exotic Newcastle Disease, Contagious Equine Metritis)
- Anthrax
- Avian Chlamydiosis
- Avian Encephalomyelitis
- Avian Metapneumovirus
- Blastomycosis
- Bovine Spongiform Encephalopathy
- Brucellosis
- Canine Influenza
- Chronic Wasting Disease
- Equine Encephalitis (avian and equine)
- Equine Herpes Myeloencephalopathy
- Equine Infectious Anemia
- Equine Piroplasmosis
- Infectious Laryngotracheitis
- Influenza in poultry
- Johne’s Disease, Paratuberculosis
- Mycoplasma gallisepticum (breeder flocks only)
- Mycoplasma meleagridis (breeder flocks only)
- Mycoplasma synoviae (breeder flocks only)
- Plague (Yersinia pestis)
- Pseudorabies
- Pullorum-Typhoid Disease
- Q-Fever
- Rabies (wild and domestic species)
- Salmonella enteritidis (chicken egg-layers only)
- Scrapie
- Tuberculosis
- Tularemia (wild and domestic species)
- West Nile Virus
- Vector-borne diseases of Public Health Significance  
  (e.g. Rocky Mountain Spotted Fever, not Lyme Disease)
- Zoonotic diseases of Public Health Significance  
  (e.g. Taenia saginata, Taenia solium, Echinococcus granulosus)
- Chemical Toxicity or Contamination of Public Health Significance (livestock or poultry)

Where to Report:

- Minnesota Board of Animal Health: 651-296-2942 or District Veterinarian (business hours)
- Minnesota Poultry Testing Laboratory: 320-231-5170 (business hours)
- Minnesota Duty Officer: 800-422-0798 (after hours)
