Veterinary care. A kennel or kennel dealer must establish and maintain a program of disease control and prevention, euthanasia, and adequate veterinary care under the supervision of a licensed veterinarian. A written program of veterinarian care, signed and dated by the veterinarian and kennel manager, must be kept on file at the kennel and available for review by the board upon request. The program of veterinary care must be reviewed by the kennel manager and veterinarian annually and updated as needed. The veterinarian must visit the facility as often as necessary to supervise the program, with a minimum of an annual visit. Sick or injured animals must receive veterinary care promptly. *(Minnesota Rules 1721.0520)*

Disease Control. The protocol for disease control and prevention for this facility is as follows:

Vaccination. The vaccination protocol for this facility is as follows:

Vaccine	Recommended schedule

Parasites. The protocol for treatment of parasites at this facility is as follows:

Parasite treatment or evaluation	Recommended schedule

Euthanasia. The protocol for euthanasia of animals at this facility is in accordance with the guidelines in the most recent version of the *AVMA Guidelines for the Euthanasia of Animals* and is as follows:

--

Veterinary care. The protocol for veterinary care of animals at this facility is as follows:
